OECD Benchmark Definition of Foreign Direct Investment 2008: Fourth Edition OECD Organisation for Economic Co-operation and Development

Foreign direct investment (FDI) is a major driver of globalisation. The Benchmark Definition of Foreign Direct Investment sets the world standard for FDI statistics. It provides a single point of reference for statisticians and users on all aspects of FDI statistics, while remaining compatible with other internationally accepted statistical standards. This edition introduces new analytical data breakdowns and statistical treatments that better reflect the realities of today's world economy. The revised Benchmark Definition provides methods for classifying different types of FDI (e.g., mergers and acquisitions, greenfield investments) and for identifying the ultimate investor. The new edition now addresses the uses of FDI statistics, including globalisation indicators, and provides a chapter relating to the statistics on the activities of multinational enterprises.

Table of Content :

- Chapter 1. Introduction
- Chapter 2. Uses of FDI Statistics
- Chapter 3. Main Concepts and Definitions
