## The Advanced Practice Nurse Cardiovascular Clinician

Focusing on the interdisciplinary team, this cardiovascular resource provides evidence-based knowledge and guidance for advanced practice nurses in a variety of care settings. Its clinically relevant and directly applicable information is presented in an accessible and well-organized format. The book encompasses clinical findings, diagnostic testing, state-of-the-art procedures, and therapeutic interventions commonly utilized in inpatient and outpatient clinical cardiology. It is specifically designed to meet the informational needs of advanced practice registered nurse providers and students including family nurse practitioners, adult-gerontology acute care nurse practitioners, nurse anesthetists, and clinical nurse specialists.

The resource covers the range of cardiovascular conditions, both chronic and acute. It discusses the interdisciplinary cardiovascular care team; explains the cardiovascular history and clinical examination in nearly step-by-step detail; analyzes clinical findings; details common stable and urgent conditions; describes the preoperative cardiovascular evaluation; advises on the selection and appropriateness of laboratory evaluations and cardiovascular diagnostic studies; provides an overview of state-of-the-art procedures, including electrophysiology; and assesses therapeutic interventions, including lifestyle, pharmacotherapeutics, and invasive techniques. It supports the development of clinical judgment skills and therapeutic decision-making by considering the challenges presented through advances in technology and the increasing complexity of diagnostic procedures. An appendix features tables of relevant and essential cardiovascular guidelines for quick reference.

### Key Features:
