## Encyclopedia of Oil and Gas Law: Midstream and Downstream (Volume 2)

This new major work uniquely combines an encyclopaedia with commentary for the entire chain of petroleum activities. The second volume deals exclusively with midstream and downstream activities. The topics it covers include energy policies; the relevant players in the sector - from governmental authorities to national oil companies; gas storage; the regulatory and contractual frameworks governing gas and sales agreements; liquefied natural gas; pipelines; distribution networks; refineries; trading and gas stations.
