Hegel Myths and Legends (Studies in Phenomenology and Existential Philosophy (Paperback)) Jon Stewart

For over thirty years, Hegel scholars have known that many of the views of Hegel rife in the Anglo-Saxon world are highly inaccurate. The essays collected in this volume show the myths and legends to be just that. The author has selected a set of essays that treat and effectively debunk the various Hegel myths and legends. Divided into sections addressing the various myths and augmented by Stewart's informative introduction and a bibliography, this collection should be of interest to scholars and nonspecialists alike.
