## **Aspiring to Fullness in a Secular Age: Essays on Religion and Theology in the Work of Charles Taylor**

The essays in this volume address crucial questions about the function and significance of religious accounts of transcendence in Taylor's overall philosophical project; the critical purchase and limitations of Taylor's assessment of the centrality of codes and institutions in modern political ethics; the possibilities inherent in Taylor's brand of post-Nietzschean theism; the significance and meaning of Taylor's ambivalence about modern destiny; the possibility of a practical application of his insights within particular contemporary religious communities; and the overall implications of Taylor's thought for theology and philosophy of religion. Although some commentators have referred to a recent religious "turn" in Taylor's work, the contributors to *Aspiring to Fullness in a Secular Age* examine the ways in which transcendence functions, both explicitly and implicitly, in Taylor's philosophical project as a whole.

"Carlos D. Colorado and Justin D. Klassen have gathered thoughtful, intelligent essays that address Charles Taylor's emergent theological views and their role in his thought and work. All of the contributions thoughtfully and clearly explore what Taylor says about the role of a transcendently oriented religious commitment in the modern, secular world. They also show where Taylor's analysis of human existence and modern identity exposes an opening for theologically serious thinking within the context of philosophical, ethical, and even political thought." —**Michael L. Morgan, Chancellor's Professor Emeritus of Philosophy and Jewish Studies, Indiana University**
