This book is about equine acupressure: the art of alleviating your horse's physical, and even mental problems by applying a pressure with your thumb or index finger on specific points of acupuncture. Without interfering with your veterinarian, whose intervention remains necessary in most cases, you will in this way be able to check the course of a colic, help your mare in foaling, help your horse overcome heat stroke, a crisis of emphysema, a hemorrhage, a bout of "tying up," and more. Just as human first aid does not compete with, but rather complements medical care by saving precious time before the intervention of the physician, equine acupressure first aid can spare your horse the worst as the veterinarian is en route to your barn. Read the indications given by Dr. Giniaux carefully, apply them tactfully, and you will be astounded by the results! Enthusiastic, curious, and brilliant, Dr. Giniaux is a researcher who passionately tries to understand, not only with his brain but also with his heart and senses, the exhilarating phenomenon called "life." Dominique Giniaux D.V.M. is also the author of *Equine Osteopathy: What the Horses Have Told Me*, [Xenophon Press 2014] a natural complement to this book.
