Rivers - Physical, Fluvial and Environmental Processes (GeoPlanet: Earth and Planetary Sciences)

Rivers - Physical, Fluvial and Environmental Processes (GeoPlanet: Earth and Planetary Sciences)

This book describes the domain of research and investigation of physical, chemical and biological attributes of flowing water, and it deals with a cross-disciplinary field of study combining physical, geophysical, hydraulic, technological, environmental interests. It aims to equip engineers, geophysicists, managers working in water-related arenas as well as advanced students and researchers with the most up to date information available on the state of knowledge about rivers, particularly their physical, fluvial and environmental processes. Information from various but also interrelated areas available in one volume is the main benefit for potential readers. All chapters are prepared by leading experts from the leading research laboratories from all over the world.
