The Peoples of Middle-Earth: The History of Middle-Earth, Vol. 12

J.R.R. Tolkien

The Peoples of Middle-Earth: The History of Middle-Earth, Vol. 12 J.R.R. Tolkien

Throughout this vast and intricate mythology, says Publishers Weekly, "one marvels anew at the depth, breadth, and persistence of J.R.R. Tolkien's labor. No one sympathetic to his aims, the invention of a secondary universe, will want to miss this chance to be present at the creation." In this capstone to that creation, we find the chronology of Middle-earth's later Ages, the Hobbit genealogies, and the Western language or Common Speech. These early essays show that Tolkien's fertile imagination was at work on Middle-earth's Second and Third Ages long before he explored them in the Appendices to The Lord of the Rings. Here too are valuable writings from Tolkien's last years: "The New Shadow," in Gondor of the Fourth Age, and "Tal-elmar," the tale of the coming of the Nmen-rean ships.
