This is one of a series of picture books for seniors with **no text**, specifically formatted for those who enjoy looking through a book yet struggle with reading. If your loved one is offended by being given children's book or finds heavy, hard-cover books difficult to hold, this is the answer.

With the goal of providing visually appealing books that boost self-esteem and pride in book ownership, there are no words on the cover or inside that mention this is geared for seniors, adults with reading troubles, Alzheimer's patients or other.

With the needs of the senior in mind, this picture book is a square 8.5 x 8.5 soft cover book (perfect for holding) with vivid, full-color photographs, located only on the right side (to provide visual stimulation without causing one to feel overwhelmed).

Most seniors absolutely love looking at photographs of babies; it brings an instant sense of calm, joy and wonder. This picture book of babies is filled with carefully chosen, unique, high quality (300 DPI) images to provide a smile on every turn of the page. With 45 large photos (93 total page count) in bright, vivid full-color, a senior will find delight in 'reading' this book over and over.

Please note: The only script is that which must be legally included: Title page (that does not mention this is geared for seniors), copyright and ISBN. The final page lists photo/artist credits.

This is a Level 1 book. If you are looking for picture books for seniors that do include some captions, please look to Emma Rose Sparrow's Level 2 books. For short story books with 1 to 3 photos per chapter, look to her Level 3 books.
