Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) Keith Devlin

Keith Devlin. You know him. You've read his columns in MAA Online, you've heard him on the radio, and you've seen his popular mathematics books. In between all those activities and his own research, he's been hard at work revising Sets, Functions and Logic, his standard-setting text that has smoothed the road to pure mathematics for legions of undergraduate students.

Now in its third edition, Devlin has fully reworked the book to reflect a new generation. The narrative is more lively and less textbook-like. Remarks and asides link the topics presented to the real world of students' experience. The chapter on complex numbers and the discussion of formal symbolic logic are gone in favor of more exercises, and a new introductory chapter on the nature of mathematics--one that motivates readers and sets the stage for the challenges that lie ahead.

Students crossing the bridge from calculus to higher mathematics need and deserve all the help they can get. Sets, Functions, and Logic, Third Edition is an affordable little book that all of your transition-course students not only can afford, but will actually read…and enjoy…and learn from.

About the Author

Dr. Keith Devlin is Executive Director of Stanford University's Center for the Study of Language and Information and a Consulting Professor of Mathematics at Stanford. He has written 23 books, one interactive book on CD-ROM, and over 70 published research articles. He is a Fellow of the American Association for the Advancement of Science, a World Economic Forum Fellow, and a former member of the Mathematical Sciences Education Board of the National Academy of Sciences,.

Dr. Devlin is also one of the world's leading popularizers of mathematics. Known as "The Math Guy" on NPR's Weekend Edition, he is a frequent contributor to other local and national radio and TV shows in the US and Britain, writes a monthly column for the Web journal MAA Online, and regularly writes on mathematics and computers for the British newspaper The Guardian.

From reader reviews:

Timothy Bennington:

Have you spare time for any day? What do you do when you have a lot more or little spare time? Yes, you can choose the suitable activity regarding spend your time. Any person spent their spare time to take a go walking, shopping, or went to the particular Mall. How about open or perhaps read a book called Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series)? Maybe it is for being best activity for you. You know beside you can spend your time along with your favorite's book, you can cleverer than before. Do you agree with the opinion or you have additional opinion?

Terrie Anderson:

Here thing why this kind of Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) are different and trusted to be yours. First of all reading through a book is good but it really depends in the content from it which is the content is as delicious as food or not. Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) giving you information deeper and different ways, you can find any publication out there but there is no book that similar with Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series). It gives you thrill reading through journey, its open up your own eyes about the thing which happened in the world which is maybe can be happened around you. It is possible to bring everywhere like in park your car, café, or even in your method home by train. For anyone who is having difficulties in bringing the printed book maybe the form of Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) in e-book can be your alternate.

Paul Leavens:

Now a day folks who Living in the era everywhere everything reachable by talk with the internet and the resources included can be true or not involve people to be aware of each data they get. How many people to be smart in having any information nowadays? Of course the answer is reading a book. Studying a book can help persons out of this uncertainty Information specifically this Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) book because this book offers you rich info and knowledge. Of course the data in this book hundred per cent guarantees there is no doubt in it you may already know.

Ricky Bodkin:

Don't be worry when you are afraid that this book will certainly filled the space in your house, you will get it in e-book approach, more simple and reachable. This kind of Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) can give you a lot of pals

because by you looking at this one book you have point that they don't and make anyone more like an interesting person. This specific book can be one of one step for you to get success. This e-book offer you information that maybe your friend doesn't recognize, by knowing more than other make you to be great persons. So , why hesitate? Let us have Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series).
