Entangled Graham Hancock

Graham Hancock has spent decades researching and writing some of the most ambitious and successful nonfiction investigations into ancient civilizations and wisdom. *Entangled* uses all of Hancock's skills and knowledge to propel a fantasy adventure like nothing else preceding it. This is a time-slip novel, alternating between present-day California, Brazil, and prehistoric Spain, with two teenage female protagonists who must come together to avert an incredibly bloodthirsty takeover of the human race.

Entangled is the first book in a trilogy relating the story of an unrelentingly evil master magician named Sulpa who is on the loose and determined to destroy humanity. Leoni, a troubled teen from modern-day Los Angeles, and Ria, a young woman who lives in Stone Age Spain, meet in a parallel dimension outside the flow of time to stop Sulpa's spectacular, deadly materialization in the modern world. Riding a growing wave of interest in parallel dimensions and imaginary worlds (*The Lord of the Rings*, *The Chronicles of Narnia*, and *The Golden Compass* are recent Hollywood examples), *Entangled* will have immediate appeal to readers and listeners of Philip Pullman, Stephen King, Neil Gaiman, and Kate Mosse, among others.

But *Entangled* has the added merit of being grounded in solid anthropological and scientific research. Hancock calls on his years of research into cutting-edge issues, including the "Neanderthal enigma", the nature of consciousness, the many-worlds interpretation of quantum physics, parallel realms, time travel, and near-death and out-of-body experiences.
