Video Coding: Part II of Fundamentals of Source and Video Coding (Foundations and Trends in Signal Processing)

Thomas Wiegand, Heiko Schwarz

Video Coding: Part II of Fundamentals of Source and Video Coding (Foundations and Trends in Signal Processing) Thomas Wiegand, Heiko Schwarz

Video Coding is the second part of the two-part monograph *Fundamentals of Source and Video Coding* by Wiegand and Schwarz. This part describes the application of the techniques described in the first part to video coding. In doing so it provides a description of the fundamental concepts of video coding and, in particular, the signal processing in video encoders and decoders.

The monograph describes the basic structure of video codecs, discusses the fundamental concepts of video coding, and highlights their application in modern video coding standards. The effectiveness of various coding tools is demonstrated based on experimental results.

The text is aimed at students and engineers who wish to explore the subject. It provides an in-depth treatment of the basic principles and coding tools found in modern video codecs. Real world examples and analysis of certain coding tools are given by referring to video coding standards. These standards do not only represent the dominant technology for real-world applications, but also reflect the state-of-the-art in the field of video coding.

Video Coding is suitable as a primary text for courses on this subject. It can also be used as a resource for teaching and as a comprehensive reference for professional engineers and academic researchers.

From reader reviews:

Joaquin Hogan:

Do you have favorite book? In case you have, what is your favorite's book? E-book is very important thing for us to be aware of everything in the world. Each reserve has different aim as well as goal; it means that reserve has different type. Some people feel enjoy to spend their the perfect time to read a book. They may be reading whatever they consider because their hobby is usually reading a book. Think about the person who don't like studying a book? Sometime, individual feel need book if they found difficult problem or perhaps exercise. Well, probably you will need this Video Coding: Part II of Fundamentals of Source and Video Coding (Foundations and Trends in Signal Processing).

Mary Lee:

This Video Coding: Part II of Fundamentals of Source and Video Coding (Foundations and Trends in Signal Processing) are reliable for you who want to become a successful person, why. The reason of this Video Coding: Part II of Fundamentals of Source and Video Coding (Foundations and Trends in Signal Processing) can be one of several great books you must have will be giving you more than just simple examining food but feed an individual with information that possibly will shock your before knowledge. This book is actually handy, you can bring it just about everywhere and whenever your conditions throughout the e-book and printed types. Beside that this Video Coding: Part II of Fundamentals of Source and Video Coding (Foundations and Trends in Signal Processing) giving you an enormous of experience for instance rich vocabulary, giving you trial run of critical thinking that we understand it useful in your day exercise. So , let's have it and luxuriate in reading.

Donald Freeman:

As a student exactly feel bored to help reading. If their teacher asked them to go to the library or to make summary for some reserve, they are complained. Just small students that has reading's heart or real their hobby. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that reading through is not important, boring and can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this Video Coding: Part II of Fundamentals of Source and Video Coding (Foundations and Trends in Signal Processing) can make you really feel more interested to read.

James Bouchard:

A number of people said that they feel fed up when they reading a book. They are directly felt that when they get a half regions of the book. You can choose often the book Video Coding: Part II of Fundamentals of Source and Video Coding (Foundations and Trends in Signal Processing) to make your own reading is interesting. Your skill of reading skill is developing when you just like reading. Try to choose simple book to

make you enjoy to study it and mingle the feeling about book and reading especially. It is to be 1st opinion for you to like to start a book and read it. Beside that the book Video Coding: Part II of Fundamentals of Source and Video Coding (Foundations and Trends in Signal Processing) can to be your brand-new friend when you're really feel alone and confuse using what must you're doing of their time.
