I thank the readers that will want to write a brief critique, any can be the judgment on the book. (Watch out! The computer piracy never sleeps. Only Amazon may sell my books.) Let's reconsider the religion, so that don't overwhelm us! Observing the populations, we notice the peculiarities subordinate to the respective dominant mysticism. Fortunes and historical bad lucks are correlated, despite an appreciable dogmatic revision has not even been tried and of the cults remains indeed the "burden". In this text a recognition on the incongruities of the religion, exploring indeed the Catholic Christianity, in purpose to pursue a better connection to the quality of the "terrestrial" life!
