Integrated Pharmacology: Combining Modern Pharmacology with Chinese Medicine Dr Greg Sperber, Bob Flaws

At last, the book on Western drugs that OM students and practitioners have been waiting for. Integrated Pharmacology: Combining Modern Pharmacology with Chinese Medicine, by Dr Greg Sperber, gives you basic information about each common class of Western pharmaceuticals. For each category of drug, Dr Sperber gives us the generic names, pronunciation, and registered proprietary versions, an explanation of function, mechanism of action, dosages for adults, children, and the elderly, possible adverse affects, red flags, and the most up-to-the-minute information on specific drug-drug and drug-herb interactions that may affect your patients. Additionally, the book includes commentary by Bob Flaws on a three-part system for evaluating Western meds using Chinese medical principles and a Chinese medical analysis of each class of drugs using this three-part system. This book has Over 130 illustrations showing the functions and mechanisms of each type of drug as well as a page-by-page glossary of potentially difficult terms throughout the book.
