The Investors resource guide that you don't want to miss!

Current studies show that in order to retire successfully, a person in their early thirties is going to need to bank nearly 1 million dollars by the time they are 65 if they hope to retire instead of working until the day they die. The importance of this statistic is compounded by the fact that nearly two-thirds of those in this age group are still living paycheck to paycheck and putting nothing aside for their future. But you bought this book so you're different- or at least you strive to be.

Inside you will find not only all of the basics you need to understand in order to start investing successfully in both the short and the long term, but also plenty of specific advice when it comes to investing in the stock market, investing in options, investing in bonds and investing in the forex market. A major part of any investment strategy is research and that research starts right here, right now.

Investing for Beginners: Definite Guide for Newbies
