About 15 million used cars are sold in the U.S. every year, and average consumers need guidance on what price they should ask for their vehicle and what they should pay for one. More than 60 percent of the vehicles on America's roads are 12 years old or older. This twice-yearly guide is the ultimate authority on their retail value. Included are original list prices, retail values for vehicles in both good and excellent condition, equipment schedules with values for optional equipment, and acceptable mileage ranges. "Whatever you do, don't shop for a used car without checking its value in the Kelley Blue Book." — San Francisco Chronicle
