Mexico and the Law of the Sea: Contributions and Compromises examines Mexico's legal work at the Third UN Conference on the Law of the Sea. The volume focuses on Mexico's involvement at the regional Latin American meetings of Montevideo, Lima and Santo Domingo, in addition to its current domestic legislation the Federal Oceans Act of 1986, in particular. Readers will find an analysis of the legal regime Mexico applies to marine scientific research by foreign vessels, and the constitutional problems caused by the lack of a clear allocation of jurisdiction over islands. Mexico and the Law of the Sea: Contributions and Compromises emphasizes the maritime delimitation treaties Mexico entered into with the United States, Cuba, Honduras, Guatemala and Belize, and also includes an extensive Latin American bibliography on the law of the sea.
