Does the public have a right to be informed about the possible existence of UFOs and the suspicious events that coincide with their supposed presence? How would access to such knowledge affect our society? What responsibility does the government have in learning about UFOs in an effort to protect society? These are the types of questions that authors Robert Salas and James Klotz attempt to answer in *Faded Giant*. They explore this incidence of unidentified aerial phenomena and its proximity to the Malmstrom Air Force Base (AFB), which is near Great Falls, Montana, and the unexplainable shutdown of nearly twenty nuclear missiles that occurred. Their mission is to provide the public with accurate information surrounding the events that took place at Malmstrom Air Force Base (AFB), which have been concealed by the government for over 37 years!
